Graceflow Drainage systems provides innovative solutions that unite functionality with refined aesthetics, bringing a seamless balance of beauty and performance to your space.

Graceflow Drainage

# About Us

Engineering the Future of  
Drainage Solutions

Founded in 2012, **Akbari Drain** has grown into a trusted name in the manufacturing of high-quality drainage and bathroom products. Located near Rajkot, Gujarat, a region renowned for its engineering and manufacturing excellence, Akbari Drain takes full advantage of this environment to craft innovative, durable solutions that seamlessly combine functionality with style.

At the heart of **Akbari Drain's** success is a commitment to precision and quality. We use premium materials like AISI 304 and 316 stainless steel, especially for bulk orders, ensuring exceptional durability and flawless finishes. This dedication to superior craftsmanship has made **Akbari Drain** the preferred choice for customers who demand products that meet the highest standards.

In addition, we specialize in crafting premium stainless steel fasteners for wall-hung lavatories, washbasins, and cast iron brackets. Each product is designed for superior performance and lasting durability, showcasing our unwavering commitment to quality.

## Our Product Range

Akbari Drain offers a wide range of drainage and bathroom solutions, including:

- Shower Channel Drainers • Floor Drainers
- Bathroom Accessories • Grab Bars
- Cockroach Trap Drain • Manhole Covers

## Engineering Innovation

At Akbari Drain, we engineer products with cutting-edge design and technical excellence. Features such as enhanced water flow rates, stain and rust resistance, and advanced cockroach prevention distinguish our products from the competition. Our innovative approach helps not only improve product quality but also reduces costs, ensuring excellent value for our customers.

## Advanced Manufacturing Facility

Our state-of-the-art integrated manufacturing facility in Rajkot is 100% in-house, allowing Akbari Drain complete control over the entire production process, from design and material selection to machining, inspection, and packaging. This end-to-end approach guarantees that every product meets the highest benchmarks for quality and reliability.

## Innovative Solutions

Akbari Drain continues to drive innovation in the field of drainage and bathroom solutions. We are committed to developing products that not only improve functionality and aesthetics but also provide ease of use. This focus on innovation has made us a preferred partner for architects, engineers, designers, and homeowners. Whether it's custom orders for corporate OE buyers or solutions for export markets, our versatility enables us to meet diverse customer demands.

## Widespread Reputation and Reach

Akbari Drain has built a strong reputation in India, backed by an expansive export network. We serve several states, including Gujarat, Maharashtra, Karnataka, Kerala, Telangana, Andhra Pradesh, Punjab, Delhi, Assam, West Bengal, and Rajasthan. Our wide reach is a testament to the trust our customers place in Akbari Drain for delivering reliable and efficient drainage solutions.

Sophisticated Drainage Systems offer expertly designed water management products that combine efficiency with timeless style, elevating the appeal of any environment.

# Sophisticated Drainage

## REASONS TO CHOOSE OUR PRODUCT

Designed to increase drain efficiency. Each design has variable high flow rate to drain speedily.

International grade stainless steel (ss) for best and lasting performance.

Safety is key for installation and day-to-day usage. All sharp edges are folded inside & tapered outside.

Gradient slope towards outlet increases draining capacity and offers ease in manual cleaning.

Globally compliant 100% recyclable material.

Anti-cockroach trap options available to control generic pests.

International quality standard raw material, craftsmanship and sizes to cater to global market.

Customized product sizes and quality can be produced for corporate, OE sourcing and international market requirements.

Higher grade ss are most resistant to rust and corrosion in constant humid conditions.

Precision engineered for easy installation and all essential provided.
